

Caburn-MDC Europe, together with MDC and ISI, aims to provide the most complete range of high and ultra-high vacuum components to the European scientific community.

Welcome to Caburn-MDC Europe Limited, exclusive European distributors for both MDC Vacuum Products, LLC and Insulator Seal. Our new catalogue showcases our extensive range of high and ultra-high vacuum components available to scientists throughout Europe.

From basic flanges to innovative valves, feedthroughs and deposition equipment, our comprehensive catalogue can provide you with details on a wide range of standard products. Many of our products are available for rapid delivery, and up-to-the-minute pricing details are available on our website www.caburn.co.uk We endeavour to keep expanding our range of products to meet our customers' needs, so if you find that a product you require is not listed, please contact your local sales office to discuss your requirements.

Caburn-MDC Europe's close ties with ISI and MDC enables us to provide innovative solutions to the unique requirements that our customers may have.

MDC's vast product range is subject to strict quality controls and represents the culmination of over 40 years of research and development by scientists and engineers at the top of their field – the evolution of the product range continues today, exemplified by the new million-cycles valve line.

At ISI, scientists, engineers and technical experts have been working to perfect ceramic-to-metal bonding techniques for two decades – this ongoing drive for excellence is evidenced by the installation of ISI's newly certified class 1000 clean room, designed for cleaning and final packing of products in an ultra-clean, high-efficiency, HEPA-filtered environment.

Our sales teams in France, Italy and Germany, as well as our head office staff in the UK, are always happy to discuss your needs via email or telephone. Alternatively, if you would like a member of our team to visit your site and discuss your requirements in person, please contact your local sales office to arrange a meeting.

We look forward to hearing from you soon.
